

AI FORCE

AI FORCE — Autonomous Intelligence Assistants overview

Four assistants — Sentinel, Oracle, Scribe, and Guide — working across every module under APEX governance.

WHAT'S INSIDE

- A capability multiplier across every module — never a replacement narrative
- Sentinel — all-source monitoring around the clock with contextual alerts
- Oracle — multi-source correlation, on-demand briefings, and trend forecasting
- Scribe — continuous, chain-of-custody-aware case documentation
- Guide — onboarding, compliance guidance, and workflow optimization
- Governed and auditable: assistants operate within APEX, never bypassing authority or oversight

WHO IT'S FOR

For leaders evaluating how autonomy multiplies a team without a replacement narrative.
