STRATUM

STRATUM — Cyber Threat overview

Cyber threat intelligence with counterintelligence context — not a SIEM replacement. Exposure prioritized by mission impact.

WHAT'S INSIDE

- Not a SIEM replacement or a vulnerability scanner — it complements the stack you run
- Watch — threat-actor profiling, campaign correlation, and dark-web monitoring
- Vector — attack surface mapping and shadow-IT discovery prioritized by mission impact
- Signal — cyber-insider nexus detection that corroborates OBSIDIAN findings
- Reconnaissance early warning with attribution confidence
- Method detail kept at the functional level

WHO IT'S FOR

For CISOs, security operations, and threat intelligence teams complementing an existing security stack.
